ABSTRACT

This handbook is one of a set of six which provide a systematic means to help students in grades 4 through 8 learn the process of writing while building specific writing skills. The handbook focuses on paragraph writing, and offers 25 reproducible lessons, in a variety of formats, to help students improve their use of descriptive, narrative, expository, and persuasive writing. Each handbook also presents directions and reproducible management and evaluation aids for turning the classroom into a writing workshop (such as an editor's key, editing practice pages, an individual recordkeeping form, and a form to help students design their own writing activities).
